### EXAMINER'S AMENDMENT/COMMENT

1. Claims 1, 6, 16, 27, and 42 are allowable. The restriction requirement among the various species as set forth in the Office action mailed on July 2, 2003, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 14, 25, and 36, directed to previously non-elected species are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 15, 26, 37 through 41, and 45 through 54, directed to other previously non-elected species and/or inventions, remain withdrawn from consideration because these do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Gregory P. Durbin, Registration No. 42,503, on April 2, 2007.

3. The application has been amended as follows:  
Cancel claims 15, 26, 37 through 41, and 45 through 54.
